TERM 3 SUMMARY

K-2A

During Term 3, K-2A students have been engaged with learning numerous creative arts techniques with a focus on Living Things. We have used mediums such as paint, crayons, brenex paper, cutting and layering, masking tape on canvas and blending colours. The students are really proud of their achievements.

1-4P

In class 1-4P we have been busy learning about the Solar System in science. We have been examining the different phases of the moon, increased our understanding of how and why we have day and night, and observed why we have changes in seasons. We have completed a lovely "seasons" art work and a scratch art featuring comets. Each student was also involved in researching the features of planet Earth and another planet of choice from our Solar System.

2-6L

Class 2-6L have been busy writing information reports on Australian animals. In BTFM we have focused on place value and fractions. As a class we have been practicing our Social Skills with lessons around how to successfully join games, build and maintain friendships. We have enjoyed learning about magnets and forces with Mr Potter in Science. We also love doing Art with Mrs Wilson.

5/6HG

In 5/6HG this term, students have been creating abstract and "Pop-Art" artworks during our Creative Arts program. We have explored a range of mediums and techniques to create our works including directed drawing, collage, photography, sponging, splattering and water colours on oil pastel. We have enjoyed learning how to use different mediums to create different effects and are very proud of our creations!

SUPPORT

TERM 4
WEEKS 1 & 2

K-2A

In Term 4, K-2A students will be looking at narrative writing and to continue to work on reading and spelling our sight words to fill up our tricky word tree. Within the Back to Front Maths program we will focus on patterns for the first two weeks. In Science students will look into force and the concept of push and pull. Finally for PDHPE and social skills we will continue to develop our skills in turn taking and winning and losing.

1-4P

During Term 4, students in 1-4P will be studying Natural Disasters and their impacts on communities, in a combined Science/Geography unit. We will continue to work on our writing, with a focus on narratives. During Back To Front Maths Lessons we will be focusing on patterns. In PDHPE we will be discussing safety in various contexts. We are looking forward to a good start to term 4.

2-6L

Class 2-6L will be studying persuasive texts, including presenting a speech on a chosen topic. In Back To Front Maths lessons we will be beginning the term learning about money and financial mathematics. For Science with Mr Potter, students will learn about Earth and Space and in Geography we will continue looking at Australia and its' neighbouring countries. We are keen to enjoy a safe and friendly return to Term 4.

5/6HG

In 5/6HG we will be studying Earth and Space in Science. In Geography we will be looking at how places are similar and different. We will continue to make beautiful artworks on these topics as well as trying out some drama.
