

EARLY STAGE 1

TERM 4

•

NEWSLETTER 2

Students in Kindergarten have returned to school with their very best manners, brightest smiles and fantastic attitudes to start Term 4.

English

Kindergarten students have been participating in the final lessons of InitialLit for English during our first year of school. We are focused on writing in full sentences and creating illustrations which are directly related to our writing. To get ready for Year one, we are writing on lines and leaving spaces between our words.

Maths

We are continuing to work through the 'Back to Front' Maths program and consolidating concepts we have been learning about throughout the year. We are enjoying all the hands-on activities and problem solving activities we have been working through.

Our other KLAs

Kindergarten have been learning about different Drama forms. So far, we have been focusing on improvisation and movement.

Our vege garden is growing very well and we will be able to harvest our vegetables soon.

In Sport/PE we are still restricted to only going out in class groups and are focused on fundamental movement skills and modified games.
