

STAGE 1

TERM 4

WEEK 2

English

This fortnight, students in Stage One are focusing on Informative texts and have been introduced to the structure and language used when writing procedures. In InitialLit, students in Year One have continued to learn more complex decoding strategies for reading, including some new trigraphs. Students in Year Two have continued to work on challenging graphemes and how they apply this knowledge when spelling.

Maths

In Mathematics students and teachers of Stage One have been learning alongside the Back-to-Front Maths program. We have been taking a closer look at repeating and growing patterns, chance and area. Students have been exploring these concepts through ICT resources and concrete materials.

Coming up!

Tuesday Week Three students will have the opportunity to participate in our annual Book Fair. Students are welcome to dress up as a character from their favourite book. In Week four students are expected to bring a sock to school to begin the process of making sock puppets in Drama.

Other KLA's and Extras

In **Geography** students have set off, navigating the neighbouring oceans and countries of Australia.

For **Science** students are taking a closer look at our planet Earth and it's changing surfaces.

In **PD/H/PE** we have begun our units in 'Safety' and 'Athletics Skills', exploring what safety means in different environments and getting ready for the 2032 Olympics. Students have begun looking at scripts and puppets in **Drama**, and are looking forward to making their sock puppets in Week Four.
